

# COLOR TIME!

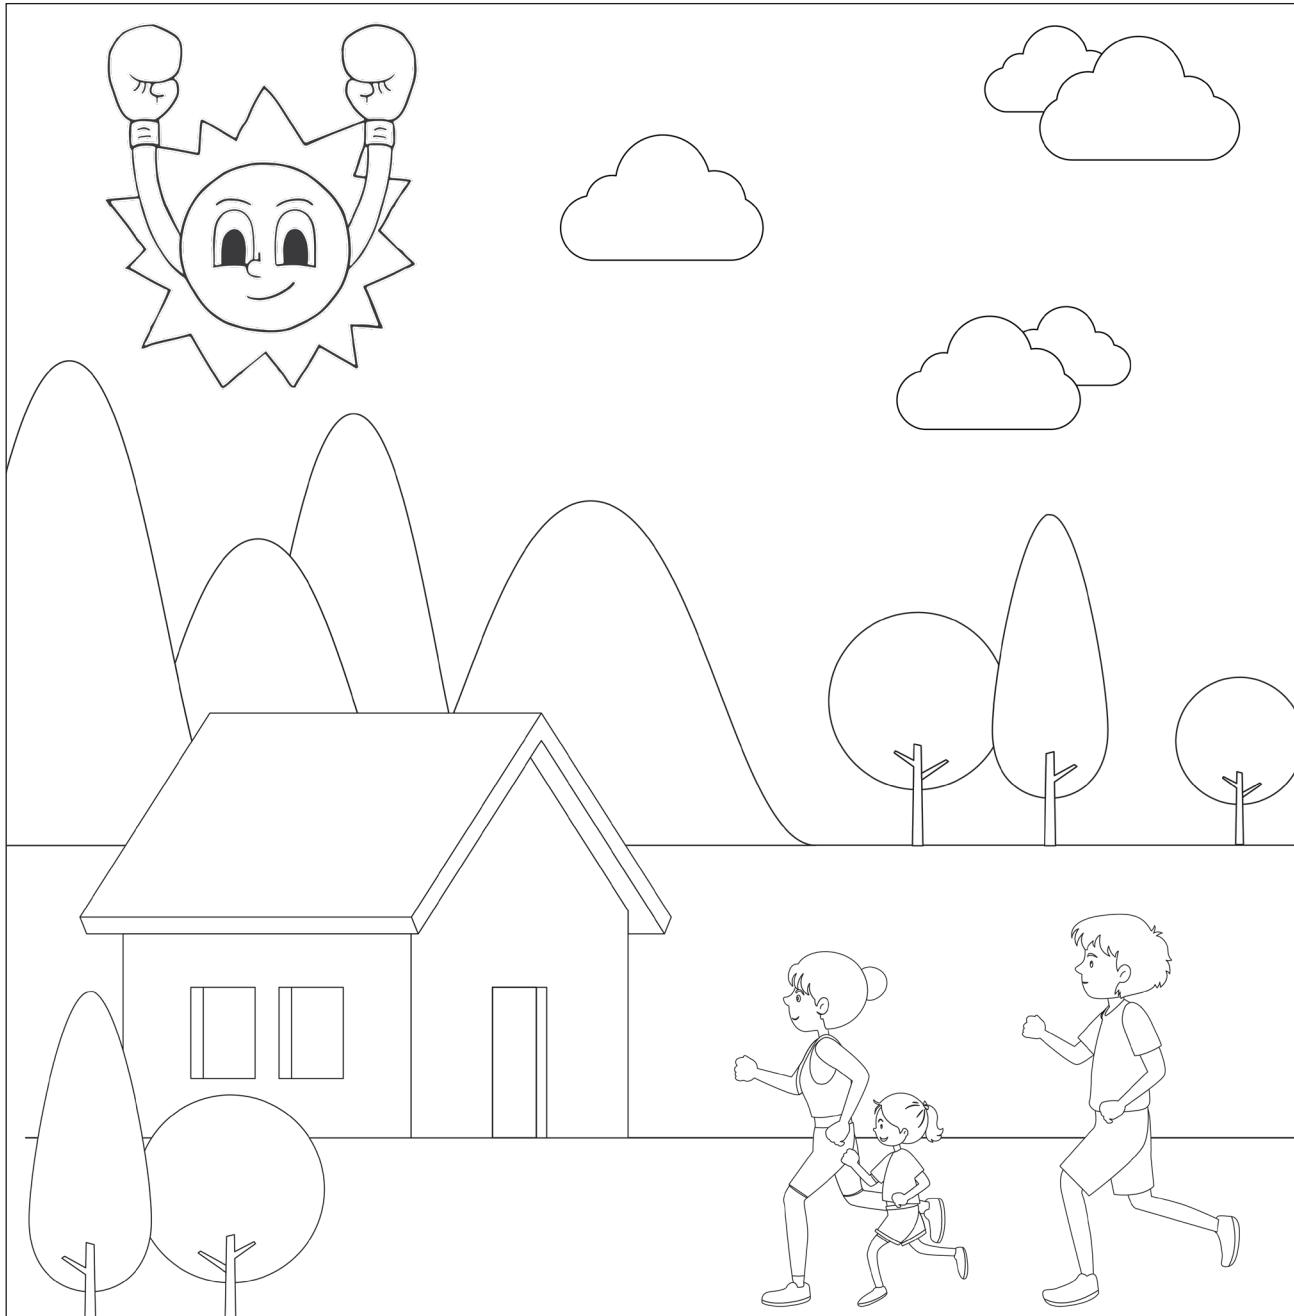

Being energy efficient is a great way to help California stay green and fight against climate change. Saving energy doesn't have to be hard-- check out these tips to be more energy efficient every day and Keep It Golden!

**1. Unplug energy vampires!** Any device that is plugged in but isn't being used can waste energy. Be sure to unplug and save!

**2. Wash clothes in cold water.** When you use the cold cycle on your washing machine it uses less energy and still gets clothes clean!

**3. Turn off unused lights.** Whenever you leave a room be sure to switch the lights off to conserve as much energy as you can!
