Thanks for proving to me that Council is unwilling to correct their dereliction of duties to the public, and have chosen instead to make it harder for residents to speak out against this crooked Council.

Copeland, how are you still allowed to represent the City when you have acted to financially benefit yourself?

Council, why are you ignoring this?

Why are you ignoring Council members that regularly skip meetings?

Why were Jones & Wilson allowed to blatantly ignore all public comments in a public hearing? They visibly spent the public comment portion scrolling on their phones.

Does Council not know that their job is to listen to the public?

Council decided without notice, October 10, to cancel remote participation & blocked the public from attending, less than 72 hours prior. Council commented their reason was because "it was nice to see the public in Council chambers".

That is hardly a reason to discriminate against residents.

Reasonable accommodation was requested from The City & no response was rec'd.

Options haven't been offered for disabled residents to participate & comment in live Council meetings. That's called discrimination.

Continued failure to treat disabled residents differently, will result in complaints for ADA violations and potential legal action.

Additionally, issues with Signal Hill Self Storage continue, since the Council decided against blocking them from operating in a residential neighborhood.

Issues including: illegal parking, junkie customers loitering in our neighborhood/engaging in drug activity (viewable on security cameras) & noise disturbances.

Please correct & limit their operations to the commercial zone only.
